

CPC NEWSLETTER

April, 2017

Enclosed is the regular APRIL update of the CPC System. The database is valid until July 31, 2017. Install this update using the usual LODRUN command.

This version of the CPC System has been updated to include over 867,463 Canadian postal codes. This is an increase of 144 postal codes from the previous update.

CPC Enhancements for April

This month we have continued to work on improving address matching. At the same time, we are working to comply with methodologies used by Canada Post (the Canadian postal service). The changes we have made this month should be transparent to the typical user.

The following is a summary of this month's changes to Canada Post's database by address record type. This information provides insight into the volume and type of changes being made.

RECORD TYPE	RECORDS	ADDED	NO CHANGE	DELETED	TOTAL
STREET ADDRESS	(TYPE 1)	26310	1331163	17791	1375264
STREET SERVED BY ROUTE	(TYPE 2)	154351	79391	152819	386561
LOCK BOX	(TYPE 3)	258	29463	60	29781
ROUTE SERVICE	(TYPE 4)	10	2470	96	2576
GENERAL DELIVERY	(TYPE 5)	4	3241	3	3248
GRAND TOTAL		180933	1445728	170769	1797430

Notice that, although there are only 867,463 unique postal codes, there are over 1.7 million address records in Canada Post's database. This is because while a postal code may represent a single address, most postal codes represent a range of addresses on a street or in a city.
