October, 2018

Enclosed is the regular OCTOBER update of the CPC System. The database is valid until January 31, 2019. Install this update using the usual LODRUN command.

This version of the CPC System has been updated to include over 873,216 Canadian postal codes. This is an increase of 251 postal codes from the previous update.

## CPC Enhancements for October

This month we have continued to work on improving address matching. At the same time, we are working to comply with methodologies used by Canada Post (the Canadian postal service). The changes we have made this month should be transparent to the typical user.

The following is a summary of this month's changes to Canada Post's database by address record type. This information provides insight into the volume and type of changes being made.

RECORD TYPE	RECORDS	ADDED	NO CHANGE	DELETED	TOTAL
STREET ADDRESS	(TYPE 1)	74363	1339813	73448	1487624
STREET SERVED BY ROUTE	(TYPE 2)	196862	81230	196201	474293
LOCK BOX	(TYPE 3)	30	30420	29	30479
ROUTE SERVICE	(TYPE 4)	32	2424	5	2461
GENERAL DELIVERY	(TYPE 5)	4	3319	1	3324
GRAND TOTAL		271291	1457206	269684	1998181

Notice that, although there are only 873,216 unique postal codes, there are over 1.9 million address records in Canada Post's database. This is because while a postal code may represent a single address, most postal codes represent a range of addresses on a street or in a city.
