

CPC NEWSLETTER

August, 2020

Enclosed is the regular AUGUST update of the CPC System. The database is valid until November 30, 2020. Install this update using the usual LODRUN command.

This version of the CPC System has been updated to include over 878,379 Canadian postal codes. This is an increase of 149 postal codes from the previous update.

CPC Enhancements for August

This month we have continued to work on improving address matching. At the same time, we are working to comply with methodologies used by Canada Post (the Canadian postal service). The changes we have made this month should be transparent to the typical user.

The following is a summary of this month's changes to Canada Post's database by address record type. This information provides insight into the volume and type of changes being made.

RECORD TYPE	RECORDS	ADDED	NO CHANGE	DELETED	TOTAL
STREET ADDRESS	(TYPE 1)	54042	1430412	50265	1534719
STREET SERVED BY ROUTE	(TYPE 2)	247618	80059	244015	571692
LOCK BOX	(TYPE 3)	41	31755	33	31829
ROUTE SERVICE	(TYPE 4)	18	2231	5	2254
GENERAL DELIVERY	(TYPE 5)	13	3491	2	3506
GRAND TOTAL		301732	1547948	294320	2144000

Notice that, although there are only 878,379 unique postal codes, there are over 2 million address records in Canada Post's database. This is because while a postal code may represent a single address, most postal codes represent a range of addresses on a street or in a city.
