

CPC NEWSLETTER

November, 2021

Enclosed is the regular NOVEMBER update of the CPC System. The database is valid until February 28, 2022. Install this update using the usual LODRUN command.

This version of the CPC System has been updated to include over 883,647 Canadian postal codes. This is an increase of 221 postal codes from the previous update.

CPC Enhancements for November

This month we have continued to work on improving address matching. At the same time, we are working to comply with methodologies used by Canada Post (the Canadian postal service). The changes we have made this month should be transparent to the typical user.

The following is a summary of this month's changes to Canada Post's database by address record type. This information provides insight into the volume and type of changes being made.

RECORD TYPE	RECORDS	ADDED	NO CHANGE	DELETED	TOTAL
STREET ADDRESS	(TYPE 1)	22614	1516352	20372	1559338
STREET SERVED BY ROUTE	(TYPE 2)	296962	90618	295972	683552
LOCK BOX	(TYPE 3)	127	34765	114	35006
ROUTE SERVICE	(TYPE 4)	5	2246	6	2257
GENERAL DELIVERY	(TYPE 5)	3	3474	4	3481
GRAND TOTAL		319711	1647455	316468	2283634

Notice that, although there are only 883,647 unique postal codes, there are over 2 million address records in Canada Post's database. This is because while a postal code may represent a single address, most postal codes represent a range of addresses on a street or in a city.
