Z4 LAT/LON NEWSLETTER

April, 2021

Enclosed is the regular April update of the Z4 LAT/LON System. The database is valid until 07/31/2021. Install this update using the usual LODRUN command. The next regular update will be sent to you in May, 2021.

Z4 LAT/LON includes 2010 Census data (Tracts and Block Groups) and 2020 U. S. Office of Management and Budget (OMB) Core Based Statistical Area (CBSA) data.

A complete list of enhancements can be found in the #READ.ME member of source file QSMPLSRC in library LTLNLIB.

Monthly Updates

Please note that although monthly updates allow you to "skip" a particular update, we strongly encourage you to install every update as promptly as possible.

Z4 LAT/LON Documentation

We have included the Z4 LAT/LON Reference Manual on the update CD-ROM (Volume 1) and DVD-ROM. It is a PDF document named Z4LLDOC. The documentation can also be printed from the Product Documentation section of our web site at: www.WorksRight.com.

Reminder

The CD-ROM's and DVD-ROM's we send to you are your property. You are not required to return any material to us.

Installation instructions are on the back of this page.

Z4 LAT/LON NEWSLETTER

Installation of this update

Before beginning, insure that the Z4 LAT/LON System is not in use. No other special preparations are needed.

To install this Z4 LAT/LON update, do the following:

1. Sign off, then sign on again as any user with *ALLOBJ special authority.

2. Make sure that QTEMP is in your library list.

3. Type: lodrun dev(device name) then press ENTER.

4. Follow the prompts.

5. If you chose the interactive installation, when the installation ends, the Z4 LAT/LON main menu will be displayed. If you chose the batch installation, when you receive the job completion message, use the STRZ4LL command to display the Z4 LAT/LON main menu.

The version number, **L.21.04**, will be displayed on the upper right side of the menu.
