

CPC NEWSLETTER

March, 2024

Enclosed is the regular MARCH update of the CPC System. The database is valid until June 30, 2024. Install this update using the usual LODRUN command.

This version of the CPC System has been updated to include over 890,645 Canadian postal codes. This is an increase of 222 postal codes from the previous update.

CPC Enhancements for March

This month we have continued to work on improving address matching. At the same time, we are working to comply with methodologies used by Canada Post (the Canadian postal service). The changes we have made this month should be transparent to the typical user.

The following is a summary of this month's changes to Canada Post's database by address record type. This information provides insight into the volume and type of changes being made.

RECORD TYPE	RECORDS	ADDED	NO CHANGE	DELETED	TOTAL
STREET ADDRESS	(TYPE 1)	56840	1583238	36220	1676298
STREET SERVED BY ROUTE	(TYPE 2)	357389	82189	355369	794947
LOCK BOX	(TYPE 3)	59	34836	53	34948
ROUTE SERVICE	(TYPE 4)	21	2064	27	2112
GENERAL DELIVERY	(TYPE 5)	7	3513	6	3526
GRAND TOTAL		414316	1705840	391675	2511831

Notice that, although there are only 890,645 unique postal codes, there are over 2 million address records in Canada Post's database. This is because while a postal code may represent a single address, most postal codes represent a range of addresses on a street or in a city.
