Dear Valued Client,

Enclosed you will find the January 2026 HyPER/Sort update.

The enclosed January 2026 HyPER/Sort update is only capable of outputting the new (effective January 18, 2026) Postage Rates and mail documentation. This update should not be installed until AFTER all mailings dated prior to January 18, 2026 have been processed. This update must be installed BEFORE any mailings dated January 18, 2026 or later can be processed.

## **Important:**

**After installing the January 2026 HyPER/Sort update you should use option 1 on the HyPER/Sort menu to open, review, and save each HyPER/Sort job that you have defined.** This will cause HyPER/Sort to re-validate job setup information and identify any settings that should be changed to meet new USPS regulations. **If possible, you should also run a test presort job and review the output to familiarize yourself with any changes in Postage Statements and rates.**

## **Changes to be expected as a result of the latest USPS Rate Case:**

- **New Postage Rates** – There are new postage rates for First Class Mail parcels.

**If you have any questions regarding the January 2026 update of HyPER/Sort or the changes resulting from the latest USPS Rate Case, contact us and we will be happy to assist you.**
