RE: **HyPER/Sort PTFs posted to address the USPS Transportation-Related Time-Limited Price Change effective 04/26/2026 through 01/17/2027**

HyPER/Sort PTFs to address the USPS Transportation-Related Time-Limited Price Change are now available for download. **PTFs are only available for the April 2026 version of HyPER/Sort.** Future versions of HyPER/Sort (May, June, July, etc.) will include the temporary pricing and will NOT require PTFs.

To download and install the PTFs, follow these steps:

1. Go to the PER/ZIP4 menu by executing the **STRPERZIP4** command.
2. Select option 7 for Utility functions.
3. Select option 11 for Download and install HyPER/Mail PTFs.

When step 3 above completes, the PTFs are installed and HyPER/Sort will use the correct rates for package mailings dated from April 26, 2026 through January 17, 2027. Mailings dated outside this date range will mail at the current postage rates.

More information on the USPS Transportation-Related Time-Limited Price Change

The USPS Transportation-Related Time-Limited Price Change is intended to better align its costs of transportation with the market. This temporary price adjustment will provide needed flexibility for the Postal Service by helping to ensure that the actual costs of doing business are covered, as required by Congress.

While this price increase is a time-limited adjustment, it will provide a necessary bridge to a permanent mechanism to reflect market conditions in prices for competitive products that can support the Postal Service's ability to achieve the universal service obligation in a more financially sustainable manner going forward.

The temporary price change is an 8 percent increase that affects base postage prices on the following retail and commercial domestic competitive products: Priority Mail Express, Priority Mail, USPS Ground Advantage, and Parcel Select. No other products or services are affected, including First-Class Stamps. The temporary price change goes into effect at midnight Central Time on April 26, 2026 and will remain in place until midnight Central Time on January 17, 2027. At that time, the Postal Service will determine if a different long-term approach is needed.

If you have any questions regarding the HyPER/Sort changes to support the USPS Transportation-Related Time-Limited Price Change, contact us and we will be happy to assist you.
