

CPC NEWSLETTER

April, 2026

Enclosed is the regular APRIL update of the CPC System. The database is valid until July 31, 2026. Install this update using the usual LODRUN command.

This version of the CPC System has been updated and now includes 896,266 Canadian postal codes. This is an increase of 139 postal codes from the previous update.

CPC Enhancements for April

This month we have continued to work on improving address matching. At the same time, we are working to comply with methodologies used by Canada Post (the Canadian postal service). The changes we have made this month should be transparent to the typical user.

The following is a summary of this month's changes to Canada Post's database by address record type. This information provides insight into the volume and type of changes being made.

RECORD TYPE	RECORDS	ADDED	NO CHANGE	DELETED	TOTAL
STREET ADDRESS	(TYPE 1)	23195	1685004	20859	1729058
STREET SERVED BY ROUTE	(TYPE 2)	420565	50860	419363	890788
LOCK BOX	(TYPE 3)	65	34380	92	34537
ROUTE SERVICE	(TYPE 4)	44	1387	35	1466
GENERAL DELIVERY	(TYPE 5)	5	3534	5	3544
GRAND TOTAL		443874	1775165	440354	2659393

Notice that, although there are only 896,266 unique postal codes, there are over 2.6 million address records in Canada Post's database. This is because while a postal code may represent a single address, most postal codes represent a range of addresses on a street or in a city.
